LINS GLADIOLUS
COLOGNE, MINNESOTA

Gladiolus Culture

Gladiolus bulbs must be stored so air can circulate among them. Therefore when your shipment of bulbs arrives, open the bags to allow air to get to them and if not ready to plant store in cool basement.

Select a planting plot as far from trees and buildings as possible. Trees draw moisture and buildings reflect heat.

Prepare your glad bed well. Spade deep and add plenty of decayed cow manure if you can get it, otherwise use a complete artificial fertilizer such as Vigoro. Dig a trench 7 inches deep and apply a heavy dusting of Vigoro or similar fertilizer in the bottom of the trench. Now cover this with two inches of soil, upon which plant your bulbs. This will bring the bulbs 5" below the level. If you want to grow show spikes space the bulbs 7 to 10 inches; however, you can plant closer if you must, but glads need root room to develop good spikes.

WATER

You cannot expect to grow first class spikes without sufficient water. It usually rains enough during the first part of the growing season but glads need extra water during August. A mere sprinkling is harmful, as it draws the roots to the hot surface. **Soak down deep once a week.** Keep the ground moist way down until the flower is cut.

Glads are primarily cutflowers. Cut when first bloom opens and develop indoors. You can enjoy the spike a long time because a good variety will open every bud to the tip, in water. Leave four leaves on the plant to develop the bulb for next year.

THRIP IS THE MAIN INSECT PEST. Thrip is a tiny insect, a mere speck which sucks the life juice from the tender flower buds before the spike emerges from the plant. The result is a poor spike, or one whose buds fail to open properly, or with mottled injured bloom.

Fortunately thrip do not overwinter outdoors in cold climates. If thrip are present at digging time, there is danger of carrying them into storage with the newly dug bulbs, and if the storage is somewhat warm, thrip will overwinter on the bulbs. Therefore if you have bulbs on hand or just bought them, disinfect every bulb you plant.

We formerly recommended the Bichloride of Mercury dip but some gardeners had trouble obtaining this material. In its place the LYSOL dip is entirely satisfactory and it is easily obtained. The LYSOL dip is made up by dissolving 4 teaspoonsful of LYSOL in 1 gal. of water. Soak bulbs 3 hrs. just before planting and plant bulbs, while still wet, the same day, into moist ground.

NEW IMPROVED CERESAN dip is a fast acting powerful dip and must be handled carefully. The formula is: 1 oz. N. I. CERESAN, 1 tablespoon Dreft, 3 gal. water. Soak bulbs 15 minutes and you **MUST** plant the bulbs the same day and into ground that is not too dry.

Since all people do not kill thrip on their bulbs before planting, you may still get thrip from other gardens because thrip can fly and can be carried by the wind. To be on the safe side start your spray or dust program when your glads are 4 to 6 inches high and once each week thereafter up to blooming time. If you prefer dusting, use 5% DDT powder in a small dust gun which can make a dust fog. **END O PEST**, a new garden dust, combats sucking and chewing insects (which includes thrip), also combats fungus trouble.

In our glad fields we use 50% wettable DDT powder in a power sprayer. For small amounts of 50% DDT spray dissolve 1 oz. of 50% wettable DDT powder into 3 gals water.

OCTOBER is the usual bulb digging month. Cut the tops off close to the bulb. Dry in shallow boxes or screen bottom trays until dry enough to remove the old bulb. Then store in cloth bags, shallow boxes or screen bottom trays in coolest place you have but they must not freeze. Temperatures 34 to 40 during the winter are ideal. This temperature will discourage thrip in storage. If your storage is warmer, dust your bulbs with 5% DDT powder, this will keep your bulbs free of thrip.

All these sprays and dusting materials are poison.

New 1950 Introductions

Flame Girl

Lins 1950

Class 536

Large wavy florets of a color so brilliant that color marvel aptly applies to FLAME GIRL. Its color could be described as between molten copper and brilliant light scarlet.

Plants are tall, and we've had them with eight 5½ inch florets open on long flower heads.

It is a good propagator, and midseason bloomer. If there is a more brilliantly colored variety, we haven't seen it. FLAME GIRL should become popular and we suggest getting a start now

Any size bulb, \$3.00

1 bulb and 10 selected bulblets, \$6.00

Magic Wand

Lins 1950

Class 440

A seedling of Greta Garbo x Rosa Van Lima

Cool, light orchid pink, very clean and chaste.

In 1948 we sent a few bulbs of MAGIC WAND to Gladland Acres, Lebanon, Oregon, for trial. Their report follows: "60-inch plants, 28-inch flower head, 22 buds, nine- 4¾-inch florets open, six in color. Rating A+. Remarks: This has everything besides perfect habits, unflecked color, bears punishing hot winds without wilting, and lastly, personality plus."

Florets are well attached, blooms late midseason, and is a good propagator.

Any size bulb, \$3.00

1 bulb and 10 selected bulblets, \$6.00

TROCADERO

Trocadero (Lins 1946)

Class 422

Brilliant unflecked

absolutely clean unmarked orange.

We must use carrot salmon orange to convey a near color description of this unusual variety. It is definitely NOT a scarlet orange.

Florists who have seen TROCADERO gave it enthusiastic approval. Well grown TROCADERO are extremely tall with long flower heads. It blooms early midseason and is a good propagator.

This beautiful vigorous variety is likely to become one of the leading commercials. We invite you to try one of the special trial sets which are figured at jobber's price.

"TROCADERO was rich and beautiful. Enjoyed its bloom from the first open floret, took it to church, and took it home again, so enjoyed it a whole week. Feb. 1949—Mrs. C. N. Hauck, Rochester. Minn.

"TROCADERO is a most interesting flower in that being practically a true self in a color class which normally required some contrast, it is in itself so full of appeal it compels attention."

Jan. 9, 1949—Wm. J. Ferrier, Michigan City, Indiana.

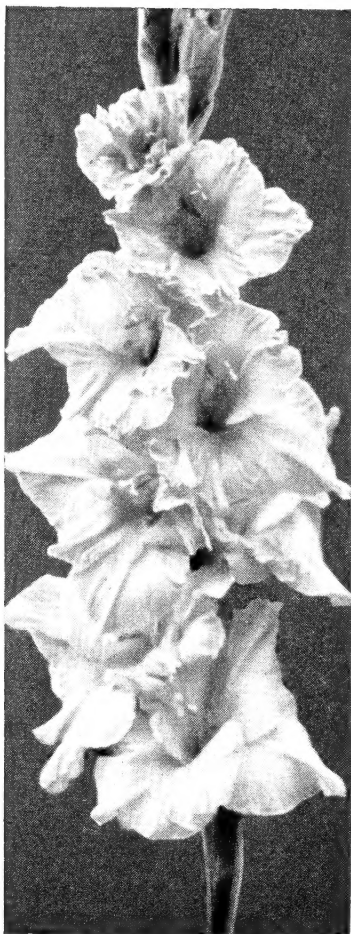

"This is my first order. I have heard so many tell of your fine bulbs and generosity, I thought I'd try an order for myself."

Mildred Hood, Seaton, Illinois

"I have many of your wonderful introductions, which I have always found to be everything you claim for them."

Jan. 21-49 E. M. Daggitt, Alexandria, Virginia

VOGUE

Vogue (Lins 1949)

Class 466

Large wide open, heavily ruffled, deep lavender—a color everybody likes. Opens eight 5-inch florets with seven in color on a 26-inch, 18-bud flower head on 55-inch plant.

A seedling of King Lear x Myrna, VOGUE could be called a heavily-ruffled, deep lavender King Lear.

Retail customers in our flower shop, as well as commercial florists, go for VOGUE in a big way. It does not carry as much red pigment as some of the new deep lavenders. VOGUE is a good propagator and a midseason bloomer.

Black Knight (Lins 1949)

Class 454

Large wide open, deep brown red of heavy substance. A consistent producer of 50-inch straight spikes with 24-inch, 20-bud flower heads. Opens six 5-inch plain-petaled florets with six in color. Florets are perfectly attached and are always perfectly placed. Unlike some brown reds, which fade to an ugly bleached out color in the sun, BLACK KNIGHT retains its rich brown red color in the sun.

BLACK KNIGHT blooms late midseason, and is a good propagator. We can wholeheartedly recommend BLACK KNIGHT if you like them husky and dusky.

Jingles (Lins 1949)

Class 230

Delightful, small, heavily-ruffled, waxy, wide-open florets of a rich coral salmon shade. Has made a hit with those who grew it last summer.

Large or medium.....50c

Unpredictable (Lins 1949)

Class 462

Last year we explained why we named this variety UNPREDICTABLE. Briefly, because some plants produce double florets. Although all florets seem double at a distance, some plants actually produce florets with eight or more petals.

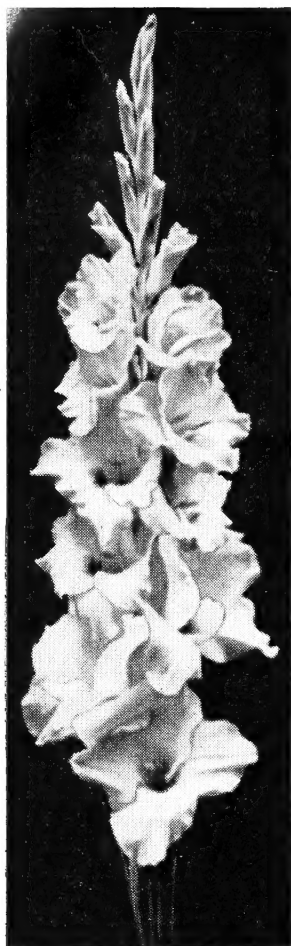

We are not stressing the doubling tendency, but rather its round, flat, hollyhock-like, four-inch florets in rose pink bordered in white. The plants are not tall, but are just right for home bouquets and make-up work. We occasionally cut blooms of this variety for our retail flower shop to test public reaction. We were surprised how the ladies went for this everytime it was available. We know the form and color of UNPREDICTABLE will also please you.

Any size bulb, 4 for \$1.00

☆ ☆ ☆ ☆

"Your bulbs certainly are fine. Look as if they had been washed and waxed. Thanks for the extras."

March 26-49 E. E. Holmes, Thornburg, Arkansas

CORAL GABLES

Coral Gables (Lins 1948)

Class 441

A beautiful shade of pink with a refined red throat mark. There are many blotched pinks but if a specimen of each would be judged by a group of experts, crediting color harmony, the award would have to go to CORAL GABLES. The delightful shade of pink, the color and pattern of its throat mark, and the form of the bloom place CORAL GABLES in a class by itself. A good spike of CORAL GABLES is exquisite. Incidentally, some spikes produce double blooms.

Silver Court (Lins 1948)

As white as new fallen snow. Some professional growers who grow all the "whites" say this is the whitest glad they have seen. By comparison most whites seem cream.

We have had sensational spikes with up to ten 5-inch round florets on 50-inch plants. Florets are well placed and well attached. Blooms early midseason and is a good propagator. Available stock is not large, the demand will exceed the supply. Try this, but order early.

	L	M	Bts.

Dixie Belle (Lins)

Class 222

Sparkling brilliant ruffled orange. To give your table arrangement that festive air use DIXIE BELLE; its 2½ inch florets are just right.

Rev. Munz of Freeport, Illinois, writes: "Why aren't you plugging Dixie Belle, she's a honey."

2 for \$.25, 5 for \$.50

TREASURE ISLAND

Treasure Island (Lins 1947)

Class 540

Tall, stately TREASURE ISLAND is one of the truly great glads. All growers who grew it and have no baby of their own to push ahead are unanimous in their praise and predict a rosy future for TREASURE ISLAND.

Its exquisite, large, ruffled and fluted florets, its tall, always straight, plants and its good growing habits place it among the aristocrats of the glad world. Due to its all around good qualities it has exceptional commercial possibilities. TREASURE ISLAND has been called a ruffled glorified ROSA VAN LIMA. Cut flower growers will make no mistake if they invest in TREASURE ISLAND.

Royal Robes (Lins 1947)

Class 352

Heavily ruffled rich velvet red. The round, wide-open florets of superb texture and heavy substance are only medium size and the plants are not tall, but since they are so perfect and beautiful they do not need great size. These smaller glads are becoming very popular.

A vase of carved ruffled velvet red ROYAL ROBES with white or yellow is exquisite.

Blooms early midseason and produces large amounts of large bulblets which will grow well, in fact, most even bloom.

Beltrami (480) Lins

Ruffled fluted golden brown to rose mulberry. Well grown BELTRAMI are tall with large florets. BELTRAMI is a popular cutflower and show flower. Blooms early midseason.

L	M	S	Bts.
5 for \$.50	5 for \$.35	10 for \$.40	25 for \$.25

Black Panther (554) Lins

Still the LARGEST BLACK RED. Opens six 6-inch wide open florets on long 20-bud flower heads on tall plants. Its buds are VELVET BLACK. Blooms early midseason.

	L	M	S	Bts.
1.....	\$.35	\$.25	\$.15	10 for \$.35
5.....	\$1.40	\$1.00	\$.60	50 for \$1.40

"Your bulbs were so pleasingly plump I could hardly wait to plant them. Their blooms were superb too. NAVAHO really stretched up. BLACK PANTHER was the neighborhood interest for days."

April 2-49—A. J. Blesener, Minneapolis, Minnesota.

"I just got to write and let you know what I think of some of your glads I grew this year. TROCADERO—wonderful, a real one. BLACK PANTHER blackest I have and what a bloom, opens up like a glad should. STOPLIGHT—they all ask for it."

Sept. 10-49—THE GLAD PATCH, Hamburg, New York.

"BLACK PANTHER is fine. I use it a lot in hybridizing. Have a big black seedling of BLACK PANTHER X Paul Robeson and several smaller blacks from BLACK PANTHER X Abu Hassan."

Joe Rettig, Logansport, Indiana.

Daisy Mae (521) Lins-Ruble

Tall robust orange pink with rose red throat mark. One of the most popular glads. If you are not growing DAISY MAE be sure to try some this season.

	L	M	S	Bts.
1.....	\$.15	\$.10	3 for \$.15	10 for \$.15
5.....	\$.60	\$.40	\$.20	10 for \$1.00

Fairyland (Lins)

We intended to keep this mauve lavender exclusively for our own cut flower trade, but customers who bought cut flowers of this variety have been asking for bulbs of FAIRYLAND.

Since we have a fair stock of this we are offering it for trial at:

3 bulbs for \$1.00

This price is for 1950 only.

Dream Castle (340) Lins

DREAM CASTLE

Now that we caught up a little on propagation, we are glad to be able to offer this outstanding variety at $\frac{1}{3}$ of the 1949 price.

DREAM CASTLE is one of the few varieties able to open and hold in good condition, a large number of blooms. The picture herewith shows how Mr. Sydney Mode of Canada grew DREAM CASTLE in 1949 under the poorest growing conditions his section experienced in many years. Under better conditions, it can open 10 to 13 florets on tall plants with long flower heads. Due to its ability to hold its lower florets in good condition while the succeeding florets open, it usually is better the second day of the show. DREAM CASTLE was second day 3-spike Champion in Iowa in 1949. When it was shown as a seedling, with eight florets open, seven experienced judges rated it 92. The last evening of the show it had 11 open in good condition while most other glads in the show had deteriorated.

It is one of our very best cut flowers and will produce fine spikes even from No. 5 bulbs.

There are hundreds of pink glads on the market, but in its class well grown DREAM CASTLE just hasn't any competition. It has all the qualities required of a good commercial and show flower. Its clean ruffled coral pink florets are perfectly attached and always perfectly placed. It never crooks—it is a dream come true. We have many enthusiastic testimonials in our files.

If you have not grown DREAM CASTLE, we urge you to grow it in 1950.

	L	M	S	Bts.

5.....	\$2.00	\$1.40	\$1.00	50 for \$2.00

☆ ☆ ☆ ☆

"Thought you might be interested to know that in our recent Iowa State glad show held here in Waterloo, 3 spikes of DREAM CASTLE entered in the open class won a blue ribbon the first day and opened even better the second day to win **SECOND DAY THREE SPIKE CHAMPIONSHIP OF THE SHOW**. Also a single spike in the open class won a blue ribbon. All this from a total planting of 5 bulbs made me think it a pretty good record. It surely is a beautiful glad."

Aug. 18-49 Ray Koenig, 321 Arlington Rd., Waterloo, Iowa.

☆ ☆ ☆ ☆

"Just a note on how I came out at the Steele County Free Fair, which as you know is Minnesota's largest county fair, second only to the Minnesota State Fair. My DREAM CASTLE was first in the light pink class, first in the **MOST OPEN FLORETS CLASS** (10 open) and finally was judged the **GRAND CHAMPION** spike of the entire show. The superior of judges remarked how unusual it was to have a 300 size glad take the **GRAND CHAMPIONSHIP**."

Merle Allen, Owatonna, Minnesota

Hi Hat (430) Lins

Late blooming orange pink, which when grown under good conditions, produces tall plants with long flower heads with practically the whole flower head in bloom or buds in color.

We included a block of **HI HAT** in one of our 1949 cut flower fields. Under irrigation, these **HI HATS** produced hundreds of dozens of grade A spikes, which, due to the length of flower head and bud color brought premium price.

L	M	S	Bts.
2 for \$.25	3 for \$.25		25 for \$.25
10 for \$1.00	10 for \$.75	10 for \$.40	100 for \$.50

Kenwood (452) Lins

Pure **CHRISTMAS RED** with absolutely no distracting stripes or marks. The plants are tall with long flower heads of 18 buds opening six wide-open well-attached florets. Cut in bud, it opens well in water. **KENWOOD** is cheap enough now so all can grow this good red in quantity.

L	M	S	Bts.
2 for \$.25	3 for \$.25	6 for \$.25	25 for \$.25

"Our glads last year were lovely. **STOPLIGHT** and **KENWOOD** were really choice."
March 6, 1949—J. S. Johnson, Rhame, North Dakota.

"**KENWOOD** and **MARQUEETA** produced beautifully and made a hit."
Nov. 8, 1949—Pyne St. Gardens, West Fairview, Pennsylvania

Marqueeta (421) Lins

Large ruffled light orange, blending to a lighter throat, overlaid with a small red mark. Produces tall, husky spikes even under ordinary conditions.

Some of our customers report six and seven-inch florets.

If you like large beautiful florets on husky plants grow **MARQUEETA**.

L	M	S	Bts.
2 for \$.25	3 for \$.25	6 for \$.25	25 for \$.25
5 for \$.50	5 for \$.35	10 for \$.35	100 for \$.50

"Last year planted some **MARQUEETA**. They were exquisite in bloom and excellent in growth behavior. Customers at my wayside stand admired them and regretted that the supply was small."

Jan. 21-49—Wm. C. Carl, Ocean Grove, New Jersey

"**MARQUEETA** was the most beautiful glad I raised last year and I had around 80 varieties."

Jan. 18-49—Dr. F. H. Beckstead, Nephi, Utah

Mercury (436) Lins

Pure vermilion red with no blotches or scratches to mar its sparkling beauty. Being a Picardy x Koehl seedling, it has the faults of Picardy, but it produces a good percentage of show spikes.

The red shade of **MERCURY** is very brilliant. It is classified as scarlet but really is a soft brilliant red. When shown as a seedling it was awarded the **AMERICAN HOME ACHIEVEMENT MEDAL** and the **GRAND CHAMPION RIBBON**, an unusual honor for a seedling.

L	M	S	Bts.
2 for \$.25	3 for \$.25	6 for \$.25	25 for \$.25

‘Last year you sent me a bulb of NAVAHO as extra. It was the finest glad spike I have ever seen: The color was just simply beautiful, with 21 buds which opened clear to the tip and the florets were near 6 inches across.’

Jan. 21-49—W. C. Watt, Fort Wayne, Indiana

Rio Rita (523) Lins

Large ruffled orange. Plants are tall with long flower heads opening six to eight wide-open florets of heavy substance. When cut in bud, spikes open large brilliant florets to the last tip bud.

RIO RITA has won many awards, including the Butler Trophy in Boston. It is one of our important cut flowers and one of our pets.

	L	M	S	Bts.
2 for \$.25	3 for \$.25	6 for \$.25	25 for \$.25
5 for \$.50	5 for \$.35	10 for \$.35	100 for \$.50

“People certainly went crazy over STOPLIGHT this summer. We cut 4 to 5 foot long spikes of RIO RITA.”

Nov. 6, 1949—Crew’s Glad Gardens, Richmond, Minnesota

Robinson Crusoe (490) Lins

Tan heavily marbled chocolate, a most unusual color.

If you want something “different” try ROBINSON CRUSOE.

	L	M	S	Bts.
1.....	\$.50	\$.40	\$.20	10 for \$.50

Stoplight (452) Lins

Brilliant ruffled red commercial and show flower. Spikes are always straight and florets are always correctly placed. STOPLIGHT is a tremendous propagator and produces good spikes from small bulbs, even bulblets bloom when irrigated.

	L	M	S	Bts.
5 for \$.40	5 for \$.30	10 for \$.30	100 for \$.25

Virgin (400) Lins

A white of extremely heavy substance. The florets are round with recurved petals which give them a chalice-like form. VIRGIN takes heat without wilting.

Although placement is not always perfect, it is one of our good whites. Opens more florets and shows more bud color than most whites.

	L	M	S	Bts.

Co-Introductions

Robert Alan (Lorenz-Milo 1949)

When we read the writeup on ROBERT ALAN we figured the claims were pretty strong, it couldn't be that good. However, when this pure golden yellow bloomed for us, it was so good we felt we had to tell our customers about it. It produced a fine tall spike with eight open in our August heat. The shade of yellow is just the right medium-deep shade we were looking for. If this is as good for others as it was for us, everybody will want it. ROBERT ALAN is the best pure yellow we've grown.

Ninety Grand (432) (Zimmer-Ward 1950)

Originator's description: Deep salmon verging into orange scarlet.

Formal 21-bud flower heads, opening 10 well-attached and well-placed florets. Healthy grower and good propagator. Cut in bud, opens well in water. Has excellent commercial possibilities.

Any size bulb.....	\$3.00
1 bulb and 10 Bts.....	\$5.00

Starter Unit—1L, 1M, 1S, 15 Bts.....	\$10.00
Growers' Unit—2L, 4M, 25S, 500 Bts.....	\$75.00

THE SAN DIEGO COUNTY, CALIFORNIA, FLOWER GROWERS ASSN.

TRIAL GARDEN REPORT FOR 1949

Treasure Island:

Tall; light pink; good grower.
Has commercial possibilities.

Trocadero:

A good grower. May be a commercial.

With remarks: The committee appointed to report on the trial garden has not been as full in their report as might be desired, but that is due to the fact that the garden came in at a very busy time, with over 140 varieties to report on.

Lavender Specials

An opportunity to get a start on three great lavenders at a substantial saving.

\$.35 each, 3 for \$1.00

Treasure Chest

This collection is properly named. Besides good standard and new varieties, it contains bulbs from our trial grounds obtainable only from us. New varieties are added each season. If you do not grow your glads under name, order the **TREASURE CHEST**. It will give you a garden full of gorgeous glads over a long period.

100 large—prepaid.....\$4.25

100 medium—prepaid.....\$3.25

“The **TREASURE CHEST** last year was so wonderful we have to have another.”

March 7-49—Henry Oltman, Welcome, Minnesota

“Your **TREASURE CHEST** is correctly named. My wife and I and in fact the whole neighborhood have enjoyed these glads immensely.”

March 6-49—H. L. Bartlett, Minneapolis, Minnesota

- 506 **LEADING LADY**—(Johnston) Beautiful creamy-white Picardy sport. Very popular. L—2 for 20c. M—2 for 15c. S—3 for 15c. Bts.—25 for 20c.
- 532 **LEEUWENHORST**—(Europe) Tall plants with large salmon pink florets. L—15c. S—3 for 15c.
- 366 **LUCKY**—(Jack) Clean unflecking lavender, lighter throat. L—25c. M—15c. S—5 for 25c. Bts.—25 for 25c.
- 432 **MADELEINE BROWN**—(Mair) Very close to Picardy but has made better spikes for us. Beautiful deep salmon. L—15c. M—2 for 20c. S—3 for 15c. Bts.—25 for 25c.
- 550 **MANSOER**—(Europe) Tall plants with large flowers. Color deep red which turns to henna brown in the sun. L—15c. S—3 for 15c. Bts.—25 for 25c.
- 532 **MARION PEARL**—(Benedict) A beautiful clean warm pink. Can make sensational exhibition spikes. L—30c. M—20c. S—10c. Bts.—10 for 30c.
- 536 **MARSEILLAISE**—(Scheer) Big bright red with cream lines on lower petals. A good grower. L—2 for 25c. M—2 for 20c. S—5 for 25c. Bts.—25 for 25c.
- 410 **MARTHA DEANE**—(Guilles) An exceptionally vigorous tall plant. Nice yellow with mild red stripe. Is a good cut flower. L—25c. M—20c. S—2 for 20c. Bts.—25 for 25c.
- 552 **MIGHTY MONARCH**—(Butt) Giant plants with large deep red florets. One of the good reds. L—50c. S—20c. Bts.—10 for 40c.

Retail Prepaid Prices

- 460 **MISS WISCONSIN**—(Krueger) One of the best rose pinks and very popular.
L—20c. M—15c.
- 560 **MISS CHICAGO**—(Buckheit) Light rose with inverted yellow crescent throat mark. Giant well-formed florets. This is different and will become popular.
L—\$4.00. Bts.—1 for 50c, 10 for \$4.00.
- 580 **MISTY DAWN**—(Rich) Unusually tall slender spikes. Color smoky grey purple. Unusual color and striking. L—2 for 25c.
- 440 **MY DEAR**—(Sisson) A very fine wide open ruffled shell pink with excellent growing habits. 30-inch flower heads on good plants. Makes lots of bulblets which grow easily. L—\$2.00. M—\$1.50. S—\$1.00 Bts.—10 for \$1.00.
- 466 **MYRNA FAY**—(Lines) Good early cutflower lavender.
L—30c. S—2 for 20c. Bts.—25 for 20c.
- 452 **NANCY**—(Arnett) A lively rich medium shade of red. Due to its nice flower heads on good plants it will make a good commercial and all around good variety.
L—50c. M—35c. S—25c. Bts.—10 for 50c.
- 420 **OCTOBER SUNSHINE**—(Quackenbush) Beautiful light apricot orange with golden yellow throat. Excellent plants. One of the really fine varieties.
L—75c. Bts.—10 for 40c.
- 422 **ORANGE GOLD**—(Marshall) Brilliant bright orange. Tall plants. Can be spotted way across the field. L—15c. Bts.—10 for 15c.
- 506 **ORIENTAL PEARL**—(Carlson) A giant cream that everybody will want. Strong healthy grower and good increaser, therefore it can now be offered at a lower price. If you haven't grown it, order some now.
L—20c. M—15c. S—10c. Bts.—10 for 20c.
- 566 **PARTHIENA**—(Hitchcock) A new deep lavender which, with Vogue, will be popular due to its color. There are as many shades of lavender as there are shades of pink. Each lavender we list is a different shade. We like this deep rosy lavender. Plants are healthy and bulblets grow well.
L—\$1.50. S—\$1.00. Bts.—10 for \$1.50.
- 566 **PATRICIAN**—(Scheer) Large true lavender. Opens 7 large, plain-petaled florets on strong, straight spikes. Well grown Patrician produces 6-inch florets. Produces large amounts of bulblets. Many growers regard this as the leading true lavender. L—\$3.00. M—\$2.00. S—\$1.00. Bts.—10 for \$2.00, 100 for \$16.00.
- 570 **PAUL RUBENS**—(Europe) Large rosy purple, tall and straight.
L—20c. S—10c. Bts.—10 for 20c.
- 560 **PERSONALITY**—(Butt) A huge plant with large florets of subdued rose pink. Garden visitors like this very much.
L—50c. M—30c. S—20c. Bts.—10 for 50c, 100 for \$4.00.
- 440 **PHANTOM BEAUTY**—(Bastian) Blushing light pastel pink. Opens a 10-open flower head on good plants. L—50c. M—35c. S—25c. Bts.—10 for 40c.
- 542 **PHOEBE**—(Scheer) Large clean warm pink. A beautiful color.
L—35c. M—25c. S—10c. 10 for 25c.
- 366 **POET'S DREAM**—(Fischer) Nicely formed ruffled lavender. Makes nice spikes.
L—15c. M—10c. S—2 for 10c. Bts.—10 for 15c.
- 530 **PROSPERITY**—(Silva) Ruffled light rose Picardy sport. Large bloom on tall spikes. L—45c. M—35c. S—2 for 35c. Bts.—10 for 40c.
- 452 **RED CHARM**—(Butt) Good medium red. L—2 for 20c. M—3 for 20c.
- 450 **RED CHERRY**—(Roberts) Good cherry red. Tall plants with good flower heads. Fine early red. L—75c. M—50c. S—30c. Bts.—10 for 75c.
- 590 **R. B.**—(Upton) A huge light smoky rose red, finely peppered lighter. Very odd.
M—10c. S—2 for 10c.

Retail Prepaid Prices

- 566 **ROSE O'DAY**—(Fischer) Tall rose lavender, many open. L—2 for 30c.
- 507 **SALMAN'S GLORY**—(Europe) Huge creamy white with showy red blotch. Blooms early and is a fine grower. L—2 for 25c. S—4 for 20c. Bts.—25 for 25c.
- 566 **SIBONEY**—(Allen) This is a beautiful shade of lavender. Florets are huge, fluted and ruffled. Placement is not always perfect, but the color is greatly admired. L—\$1.50. M—\$1.00. S—60c. Bts.—2 for 35c, 100 for \$10.00.
- 500 **SILVER WINGS**—(Ritsema) One of the best white Picardy sports, is whiter than Leading Lady. Makes fine spikes. L—15c. S—5 for 25c. Bts.—25 for 25c.
- 440 **SKYWAY**—(Stevens) An early first-class, rich, clear pink blending to a lighter throat. Florets are of good form. Good flower heads on fine spikes. L—\$3.00. M—\$2.00. S—\$1.00. Bts.—10 for \$2.50.
- 532 **SPIC & SPAN**—(Carlson) If you are not growing this one, you are missing a good variety. Tall straight plants with long flower heads of 8-open, ruffled, deep pink florets. L—75c. M—60c. S—40c. Bts.—10 for 50c, 100 for \$4.00.
- 413 **SPOTLIGHT**—(Palmer) The best yellow with throat mark. Tall plants and all around fine yellow. L—2 for 25c. S—4 for 20c. Bts.—25 for 25c.
- 483 **STORM CLOUD**—(Butt) Large smoky brown with yellow throat. A good grower and fine smoky. L—40c. M—25c. S—2 for 25c. Bts.—10 for 40c.
- 543 **SUMMER GAL**—(Zimmer) Beautiful growing geranium pink with large ruffled florets on straight spikes. L—75c. M—50c. S—25c. Bts.—10 for 75c.
- 416 **SUNLIGHT**—(Spiller) This is a beautiful rosy pink with golden throat giving an orange effect. Good grower and a fine all around variety. L—35c. M—25c. S—15c. Bts.—10 for 35c.
- 417 **SUNSPOT**—(Roberts) Apricot buff with rose spot in throat. Can open 10 florets on good spike. A show winner. L—75c. M—50c. S—25c. Bts.—10 for 75c.
- 500 **TEXAS**—(Bork) Tall, early white. Very large florets on tall plants. L—50c. M—35c. S—20c. Bts.—10 for 50c, 100 for \$3.00.
- 451 **TOPSCORE**—(Europe) Large red on tall plants. L—20c. Bts.—10 for 20c.
- 480 **TWILIGHT DREAM**—(Heberling) A blending of tan, rose and cream. Unusual smoky blend. M—35c. S—20c. Bts.—10 for 50c.
- 312 **VAN GOLD**—(Van Voorhis) Early deep yellow without any markings. Good color. L—3 for 30c. M—3 for 25c. S—5 for 25c. Bts.—25 for 25c.
- 486 **VOODOO**—(Kadel) Large ruffled smoky with stippling of bronze and plum. S—2 for 25c. Bts.—10 for 35c.
- 470 **VULCAN**—(Stevens) Large bright purple. Tall plants with good flower heads. L—2 for 25c. M—3 for 25c.
- 366 **WEDGWOOD**—(Fischer) Fine clean blue lavender with pure cream throat. Very ruffled and precise. We consider this one of the choicest varieties. L—35c. S—15c. Bts.—10 for 35c.
- 501 **WHITE CHALLENGE**—(Arnett) Large blush white with a light rose pink throat mark. Has heavy substance and makes fine spikes. We think this is a very good and consistent variety. L—\$1.50. M—\$1.00. S—50c. Bts.—10 for \$1.50.
- 500 **WHITE CHRISTMAS**—(Fischer) Extremely ruffled creamy white of heavy substance. Can make sensational spikes. Placement is not always perfect, but, like Coral Gables, all are beautiful. L—50c. M—35c. S—25c. Bts.—10 for 25c.
- 500 **WHITE GODDESS**—(Roberts) Tall ruffled white with long flower heads, opening up to 9 well-placed florets. We grew this variety two years and like it very much. L—\$1.00. M—75c. S—50c. Bts.—10 for 75c.
